EXPERIENCE

WEB DEVELOPEMENT (FULL STACK)

Hesper iT Labs

2024 - Present

Projects: HomeoPet – WordPress Multisite / WooCommerce

Role: WordPress & WooCommerce Developer (Single-handed Ownership)

- Independently managed and developed a WordPress Multisite WooCommerce platform, handling all technical aspects end-to-end.
- Customized WooCommerce features and WordPress functionality based on business requirements.
- Integrated Amazon Tag Service for tracking, analytics, and affiliate monitoring.
- Implemented New Relic monitoring to track daily file changes, application performance, errors, and server health.
- Maintained a daily task and activity sheet, documenting updates, fixes, and enhancements for transparency and tracking.
- Handled post-deployment maintenance, including:
 - Bug fixes and performance optimization
 - Plugin, theme, and WordPress core updates
 - Security patches and compatibility checks
- Managed and maintained the server environment, ensuring uptime, performance, and stability.
- Performed regular backups, monitoring, and issue resolution to ensure smooth production operations.

Technologies Used:

WordPress Multisite, WooCommerce, PHP, HTML, CSS, JavaScript, MySQL, New Relic, Linux Server, Git

PROJECT DEPLOY:

- Project Migration on Server
- Git Implementaion
- Docker

RESPONSIVE DESIGN:

- Knowledge of responsive web design principles.

CROSS-BROWSER COMPATIBILITY:

- Ensuring web applications work across different browsers.

CODE EDITORS/IDES:

- Proficiency with popular code editors or integrated development environments (e.g., Visual Studio Code, Sublime Text).

SECURITY BEST PRACTICES:

- Awareness of common web security threats and how to mitigate them.

SOFT SKILLS

- Strong problem-solving skills
- Effective communication
- Collaboration and teamwork
- Adaptability

EDUCATION

BACHELOR OF TECHNOLOGY

Chandigarh University

AUG 2017

WEB DEVELOPEMENT (FULL STACK)

KindleBit Global Inc

Dec 2020 - Dec 2023

Projects:

(kamagra-online-store-uk.com, machinery.codeloom.com, alldaypill.com)

Role & Responsibilities

- Developed frontend and backend solutions according to client requirements.
- Built responsive user interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Worked on 100+ WordPress and WooCommerce websites, including customization, optimization, and maintenance.
- Integrated secure payment gateways such as Stripe, PayPal, and Authorize.net.
- Collaborated closely with clients, implementing feedback and ensuring project requirements were met accurately.

Core PHP Project – machinery.codeloom.com

- Developed a custom Core PHP application from scratch.
- Created a multi-user backend dashboard with role-based

Access: (Admin, Dealer and User)

- Implemented dynamic frontend content connected to backend data.
- Ensured smooth data flow between frontend and backend modules.

Technologies Used:

(HTML5, CSS3, JavaScript, jQuery, Bootstrap, PHP, WordPress, WooCommerce, MySQL)

Primotech Company

February2020

Projects: (v2.media, team124llc.com, theteam124llc.com, lps-mgmt.com)

Role & Responsibilities

- Developed complete websites with end-to-end ownership, from requirement gathering to deployment.
- Specialized in WordPress theme development and customization.
- Built and customized websites using popular page builders: (Elementor, Visual Composer and Beaver Builder)
- Created role-based access panels: (User, Admin, Super Admin)
- Communicated directly with clients to understand requirements, provide updates, and implement feedback.
- Managed website deployment, updates, and maintenance.

Tools & Technologies

WordPress, PHP, HTML, CSS, JavaScript, Elementor, Visual Composer, Beaver Builder, Sublime Text, FileZilla, Linux, Windows
